## SANDING BLOCK B-1

The round and bevelled edges allow you to sand grooves and corners as well as flat surfaces.

Anyone can change the paper in ½ minute. An ordinary sand paper sheet makes 4 replacements. Very restful grip. A hole at the end of the handle allows hanging.

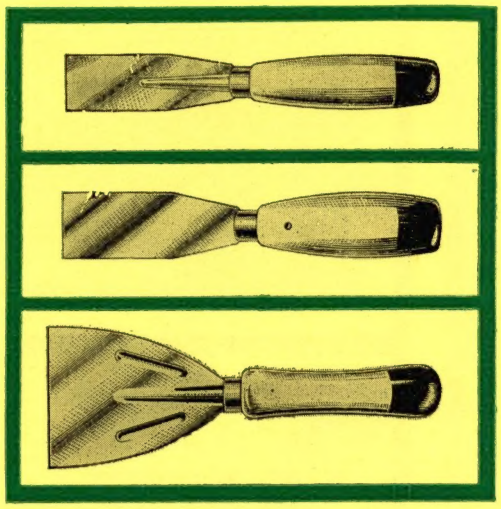
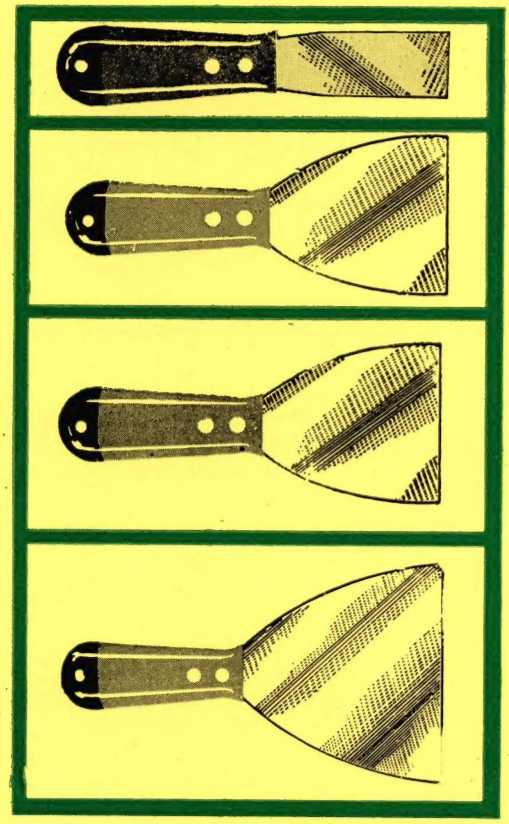
# Richard HOUSEHOLD PUTTY KNIVES AND WALL SCRAPERS

**M-1**—Satin finished plain steel blade 3¼" x 1⅛" ; reinforced with embossment for high rigidity. Round handle, painted. Blade is pressure driven into the handle. No locking pin used. Chrome plated ferrule.

**M-3**—is a "driven tang" putty knife. Blade is 3½" x 13/16" wide x .032" gauge. Handle is oval in shape, lacquer finished, and assures a firm grip.

**S-10**—A 3-inch wide scraper at a very popular price. The blade is not heat-treated but embossed to provide high rigidity. Round lacquered handle assures a good grip. Nickel plated ferrule.





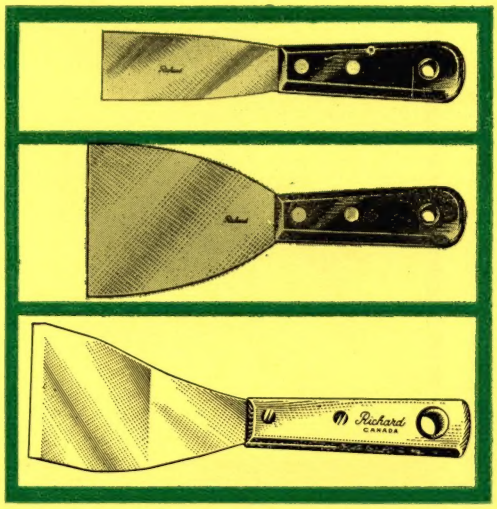
## HOUSEHOLD LINE

A completely attractive line of Household Putty Knives and Scrapers in both stiff and flexible. Half tang, spring steel blades are heat treated and polished and are available in 1¼", 3", 4" and 5" widths.

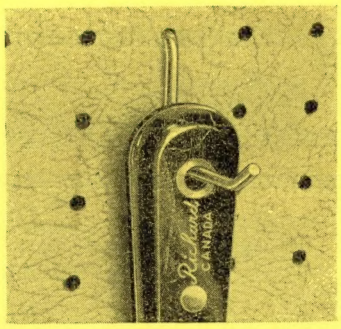
Smart two color plastic handles are securely fastened with two compression rivets. The hole in the handle is most useful for displaying and for hanging in the workshop.

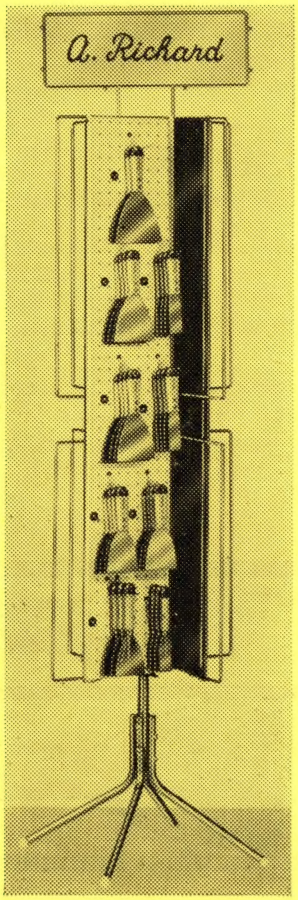
**M-2-P**—1¼-inch Putty Knife, and S-1-P 3-inch Wall Scraper, a cross between Richard professional and household lines. Heat-treated, mirror finished. Semi-stiff blade extends through entire length of handle. Two rust-proof rivets. Unbreakable colored Plastic handle. Two attractive good quality tools.

**S-3-B**—Bent scraper with offset handle for preventing injuries to knuckles. Made of extra heavy gauge .065", mirror finished, tempered steel, with harwood handle. Used for scraping-off paint and varnish after application of remover, and other heavy-duty jobs. Total length: 8½". Width of blades : 3".



# Richard TOOL ASSORTMENT No. D-4 DISPLAY





This revolving display takes only a 15" floor space.
Constructed of high quality peg-board type material with chrome plated steel frame and base, it displays an excellent variety of both household and professional tools. Tool numbers and prices are printed at each hook location.
Hundreds of these popular displays are now in hardware, paint, building supply and lumber dealer stores across the country.

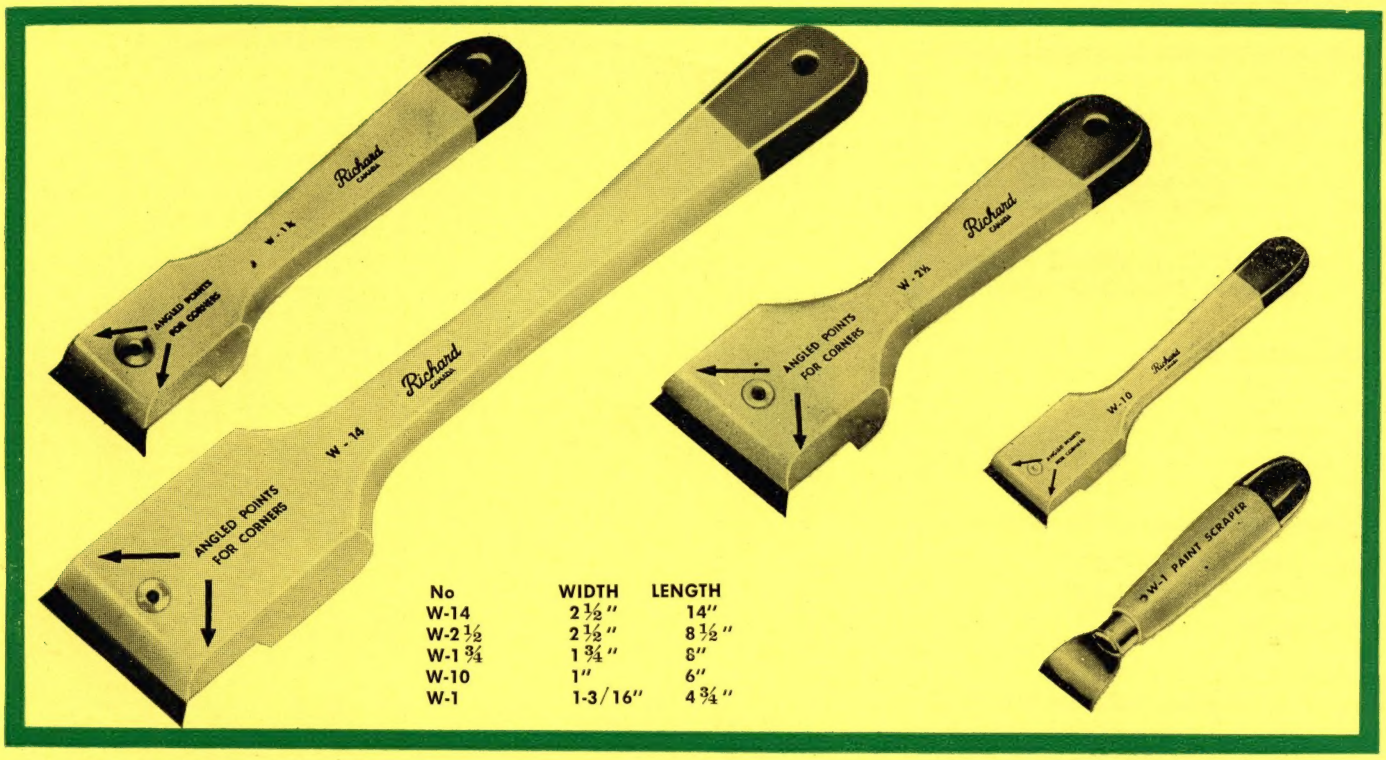
## WOOD AND PAINT SCRAPERS

"Your customers depend on you to supply them with the most practical tools."



| No | WIDTH | LENGTH |
|---|---|---|
| W-14 | 2½" | 14" |
| W-2½ | 2½" | 8½" |
| W-1¾ | 1¾" | 8" |
| W-10 | 1" | 6" |
| W-1 | 1-3/16" | 4¾" |

Note the **side angle** points of the blades. They enable you to reach the most inaccessible spots at first stroke, thus saving 50% of your time.

Every blade is scientifically heat-treated and tempered for longer cutting edge life. There is positively no vibration in Richard wood scrapers, and every blade has 2 cutting edges. Only three turns with a screw driver allow you to change blades.

# LINOLEUM KNIVES

**C-4** — This knife is designed for professional linoleum layers. The handle will last for years. Only the blade has to be replaced. One dozen spare blades take very little space in the tool box. A first quality tool.

**C-1 — LONG POINT "PROFESSIONAL" KNIFE.** Highest quality in every respect. Heavy gauge tool blade will "hold its edge" under most severe conditions. Sharpened by hand and ready for cutting practically invisible seams. Blade 2½ inches long.

**C-3 — SHORT POINT "PROFESSIONAL" KNIFE.** Same quality features as above C-1, but the point is shorter for wall coverings or close work.

**C-5 — HOUSEHOLD,** good quality linoleum knife. Sharpened, ready for use, large handle, properly tempered and mirror polished blade. The perfect knife for home owners.

**C-2 — "JUNIOR" LINOLEUM KNIFE FOR HOUSEHOLD USE.** Sharpened by hand, ready for use. Made of good quality steel and properly tempered.

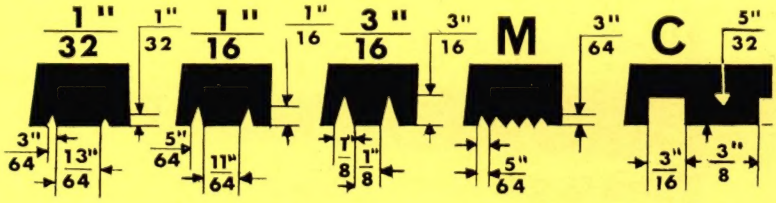
# CEMENT SPREADERS

**FOR PROPERLY LAYING LINOLEUM AND TILE . . .**

**NOTCHED SPREADERS :**

1.—Save adhesive.
2.—Spread the proper amount of adhesive.
3.—Allow air to escape between adhesive rows, thus preventing air bags.
4.—Prevent adhesive from drying before linoleum or tile is laid.

When ordering, specify size of notches. 1/16" notches are ordinarily used for floor jobs, 3/16" for wall jobs and 1/32 for vinyl jobs.



**CS-140 — ALUMINUM SPREADER** with replaceable rubber blade, for professional linoleum layers.

**RB1 — FLEXIBLE RUBBER BLADE** for above CS-140 spreader. Notches 1/8" x 3/16" on both edges.

**1/16-B** or **1/32-B ALUMINUM BLADE** for above CS-140 spreader Notches 1/16" or 1/32" deep, 1/4" apart. For various new coverings.

## SEAM ROLLERS

| FLAT FACE | | OVAL FACE | |
|---|---|---|---|
| SR-1 | 1″ wide | SR-10 | 1″ wide |
| SR-2 | 2″ ″ | SR-20 | 2″ ″ |

Here is a high quality seam roller made from the finest select maple stock. . . thoroughly dried and seasoned. . . carefully turned and made to run true. Nickel frame is built for hard use — Handles are yellow with Green tip.

## CORNER KNIFE

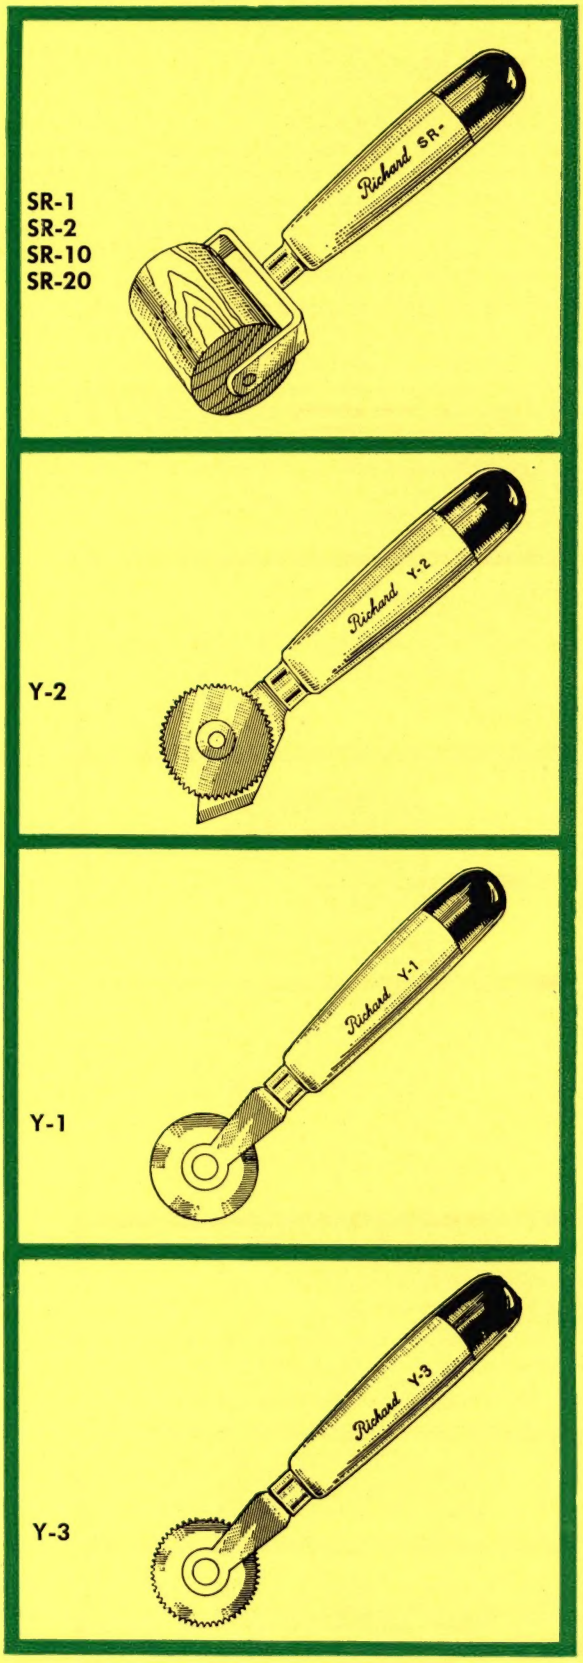
**Y-2**—Corner knives are a handy combination of corner knife and casing wheel. Blades are made from hard tool steel. Handles same as Y-3 — Y-1.

Each knife carries the Richard name.

## CASING WHEELS

**Y-1**—Highest quality construction. The finest in functional detail. Casing knives have an handle with a green tip and balance yellow. Having a smooth edge with 1½″ wheel.

**Y-3**—Same specifications as Y-1, but with V tooth serrated wheel.



A. Richard LTD.
Knife and tool manufacturers since 1890
BERTHIERVILLE, QUE., CANADA

**L-7-H—HOBBY KNIFE.** Particularly attractive. The upper part of the blade is mirror-polished and the edge is semi-hollow-ground. A thick blade with a very sharp edge. Handle is oval and riveted. Used for carving wood, cutting leather, paper board, tin and the like.

**L-4—BENCH AND LEATHER KNIFE.** The best knife for holding its edge. A lot of careful operations are involved in the manufacturing of this knife. Top quality tool steel is used and heat-treated to ensure long-lasting edge. Each knife is sharpened in our plant and shipped ready for use. Blade is 3¼" long. Used regularly for shoemaking, also as a bench knife.

**L-4-G**—(with guard — same blade as L-4)

**L-5-H**—Same quality as L-4 above, with the blade ⅝" longer and much thicker for extra heavy-duty work. Also sharpened by hand and ready for use.

**L-5-G**—(with guard — same blade as L-5-H)

**O-1—OYSTER KNIFE.** Highly polished, with thick tempered blade, 3¼" long. Sharpened at the end and featuring an oval guard for maximum protection. Natural wood handle for better grip when wet.

**O-2**—Same features as O-1 above, except that it has no guard and the blade is 2⅝" long.

**V-5**—Richard high carbon steel blade paring knife. Made and guaranteed to have the keenest and best cutting edge money can buy. The blade is 3 inches long, hollow-ground and permanently locked in red unbreakable plastic handle.

**V-52**—Stainless steel blade, hollow-ground, sharpened to a keen edge, plastic handle cast over blade tang. Handle will not break or come off. This is a very attractive popularly priced knife. Blade is 3 inches long.

**A-3**—Artist's palette knife with standard, 3-inch straight blade, tempered and ground to flexibility required by artists. Mirror finished blade is securely locked in handle with a pin. Round handle black stained.

**"BURN OFF" PAINT AND VARNISH SCRAPER.** 3" wide, stiff, hardened steel blade. 9½" long, hard wood handle is shaped for comfortable pushing action, and for preventing "Burned Fingers", First quality tool.

**R-1—ROOFING KNIFE** cutting edge all around the blade, 3 inch long. Used for cutting felt paper by roofers and in industry. Unbreakable acetate riveted handle with "non slip" finger rest & also wooden handle on special request. (ask for price).

**C-O—PAINT CAN OPENER** (also bottle opener) chrome plated hook and ferrule. High quality finish, for "quality" advertising.

## LEATHER, RUBBER AND TEXTILE KNIVES AND BLADES

We have over seventy years of experience in the manufacture of knives and extension blades for the leather, rubber and textile industries, and we owe much of our prestige and reputation to the high quality of these tools.
The fact that these products are guaranteed to give satisfaction to tradesmen should be reason enough for you to stock them . . . and sell them !

**SQUARE POINT**—3¼ inch riveted blade, round 2-color handle. For cutting tough leather. Nickel plated ferrule. Best knife steel, sharpened by hand and treated for a long-lasting edge. F.W.C. has been our registrered trade mark since 1890.

Same as L-4, except that blade is 3⅞ inches long. For those requiring an extra-heavy duty blade, we make the L-5-H which is the same as L-5 but with a much thicker blade.

**SHARP POINT**—4-inch blade. Same high quality as No. L-4 leather knife.

**TAPER POINT**—3-inch blade designed for cutting rubber, textile and patterned leather.

**McKAY**, bevel point 2¼-inch blade.

**STRAIGHT LIP** knife, 2¼-inch blade. Designed for trimming soles without damaging the upper leather.
No. L-8-R is right-hand knife.
No. L-8-L is left-hand knife.

**CURVED-LIP**, 1¾-inch blade designed with a bent lip at the end for protecting the upper leather, as our L-8 above.
No. L-9-L is our left-hand knife.
No. L-9-R is our right-hand knife.

**HAWK-BILL**, 3-inch blade, riveted to round handle. F.W.C. has been our trade mark for over 70 years and is especially well known in Quebec.

**EXTENSION BLADES**—These blades are among our top quality cutting tools. Extreme care is taken in the choice of steel, heat treatment and processing. Our regular stock is (gauge 18) .049 x 4⅝ x ⅜", in three different shapes as illustrated. Other sizes available on request.
Richard Solid Fur Knife blades are also available.

**EXTENSION BLADE HANDLES** for use with blades shown above : Brown wood handles. Paralleled metal jaws. Total length, 4⅝". Will last for years.

## New flex-blade drywall knives

This new lightweight flexible blade drywall Knife can be bent to give the blade a curved shape. Manufactured of tempered spring steel with an extremely flexible blade. Blade depth is 3¼". Handle is 7¼" long. The tool is 8½ long overall. An excellent tool for the professional finisher. Because of the ability to curve the blade, you can use it to feather-edge or skip trowel. Extremely light.

**They are available in the following sizes.**

**R-W-8** **R-W-10** **R-W-12**

## Special steel wheel glass cutter No. GL. 1

Model no : GL-1, with single wheel, is preferred by the glass trade for everyday cutting.

All types of glass may be cut with the GL-1, but cutting materials such as VITROLITE or heat resisting Glass, will reduce the life of the wheel.

In order to obtain maximum use from the Glass Cutter it is always advisable to keep the wheel well oiled, as any rust that may be allowed to form on the cutting edge will render the tool useless.

There are three notches to enable glass to be broken after a cut has been made.

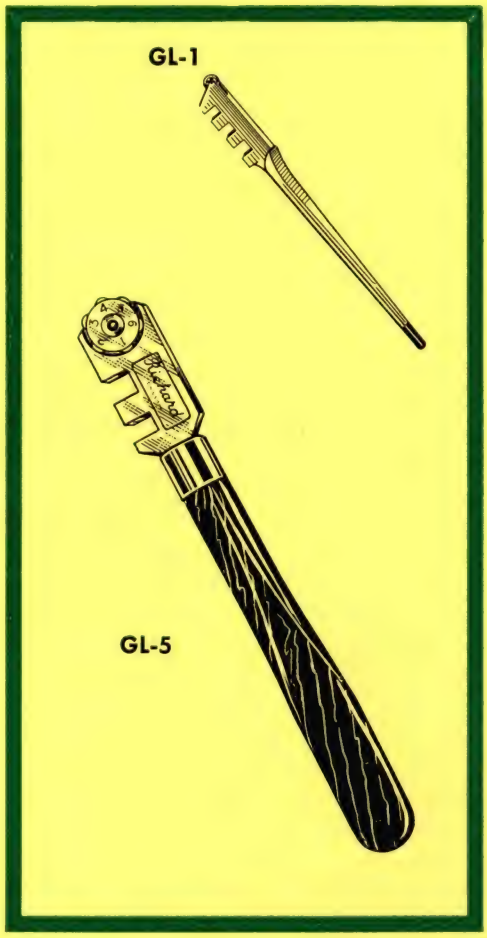
The wheel on our No. : GL-1 is made of special steel, decided upon only after exhaustive tests. Hardened in controlled Electric Furnaces. Ground and honed with extreme care. Everey wheel is tested individually. The best wheel you can buy.

## Six wheel glass cutter No. GL. 5

**GL-5** The users who prefer this type of Glass Cutter, will appreciate Richard's Turret Cutter. Head most carefully machined. Polished wood handle. Wheels of the finest quality, finally tested by experts.

Packing : 1 dozen to a box

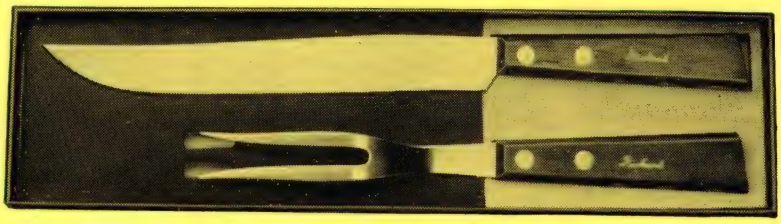
Retail Price : $1.20 ea. or $14.40 per dozen



At the request of many customers, here is a carving set free from expensive "Frills" but having the long lastings cutting edge of our industrial knives.

The blade is made of high carbon steel, tempered to industrial specifications, mirror polished and "hard chrome" plated for long lasting appearance. Hard wood handle, and 2 silver-copper rivets. The fork is made to the same high standards as the knife.

The set is packed in a handsome display box. The knife is packed individually.



K-S Carving Set (2 pcs.) — K-1 Knife

**V-1** Richard high carbon steel blade paring knife. Made to have the keenest and best cutting edge. The blade is 3 inches long, hollow ground and permanently locked in a red unbreakable plastic handle.

**V-12** Stainless steel blade, hollow ground, sharpened to a keen edge, green plastic handle cast over blade tang. Handle will not break or come off. This is a very attractive popularly priced knife. Blade is 3 inches long.

V-1

V-12
